Shades of gold permeate the living and dining areas, Fawn colored wallpaper adorn the walls, resulting in a cosy effect. Interesting features are highlighted with a frame of dark wood panelling. The dining area has a framed wall feature, incorporating a mirror panel and a fabric wrapped background with goldleaf designs, to create visual interest. Beside this is a built-in glass display shelf which is similarly framed.

A magnificent cabinet with goldleaf-plated doors stands proudly in the centre, imposing its majestic presence in the living room. Aside from being an excellent centrepiece, this custom built cabinet fulfils a more functional purpose as well – as a television cabinet.

The bedrooms exhibit a delectable mix of grace and elegance. In the master bedroom, the bed is set against a custom-made feature wall that contributes to the cosy atmosphere of the room. In addition, this development has an interestingly feature – the master bedroom is separated from the bathroom by sliding door panels. In this way, the sliding doors can be closed to allow more privacy, or pushed aside for an “open” effect with the spaces flowing continuously into one another.
