

Beyond Convention

DRIVEN BY CREATIVITY, PASSION AND A COMMITMENT TO RELIABILITY, DESIGN FIRM **TDC & ASSOCIATES** LITERALLY AND FIGURATIVELY KNOCKS DOWN WALLS TO BUILD HOMES WHICH ARE DISTINCTIVELY DIFFERENT

A Sophisticated Study In Contrasts

This apartment at Draycott Road is a great showcase of the firm's ability to create an outstanding living space through the thoughtful integration of elements which are stylish, sophisticated and striking.

A monochromatic palette is timeless while allowing for the addition of myriad textures and details without a sense of overcrowding. Multiple shades of white also helping to counterbalance the homeowners' desire for plenty of dark colours in their home, a four-room apartment with a space of 3,000 sq ft.

Says Chan, "Initially, we were a little concerned [about the use of dark colours], but we visited the site and realised that the interior was very bright, mainly because of the full-height sliding glass windows throughout the home."

Instead of simply using paint to achieve the desired dark hues, the team opted for a more interesting and sophisticated option: Overlaying the custom-built wall treatment with dark walnut wall panelling.

Putting On The Finishing Touches

Having put in place this elegant backdrop, no less attention was paid to furnishing the home with specially sourced or built design accents.

An imposing off-white sofa by Minotti – a favourite brand of the homeowners, who also use the brand in their home in Los Angeles – anchors the living room area. A carpet in graphic black and white, and two mini stands in place of a standard coffee table add to the ultra-modern feel of the space. Here and elsewhere, abstract artworks in similar monochromatic shades complete the home's contemporary feel while adding a sense of visual drama.

Multifaceted in design despite its understated monochromatic colour theme, this home showcases TDC & Associates' mastery of its craft. Visit the firm to understand how the team can work with you to realise your dream home.

HOMEOWNERS WHO ARE PARTICULAR ABOUT THE quality of their interiors and open to new ideas, will find the perfect interior design partners in TDC & Associates. Established in 1993, the homegrown interior design firm has established itself as a creative design force which is passionate, reliable and not afraid to challenge the status quo. Its ability to create functional and exemplary living spaces has been demonstrated time and again in the company's outstanding portfolio of projects, which includes bungalows, penthouses, spas and showflats.

An Award-Winning Approach To Design

Eschewing fancy proposals for a practical approach, the team – led by principal designer Chan – makes it their priority to listen to and communicate with their clients to truly understand their needs and requirements. The design process that follows sees the team working closely with each client to achieve a dream home, while sharing their wealth of creative ideas, technical knowledge, and insights on the latest trends in home design.

Bearing testament to its outstanding performance in the field of interior design, TDC & Associates – which has worked with both local and regional clients – has won several awards over the years. These include the Asia Pacific Residential Property Award for Best Interior Design Singapore in 2009 and 2010.
