

# CLASS ACT

---

STRONG NATURAL LIGHT SHOWS OFF THE SUBTLE DEMARCATION  
OF SPACES AND LUXE FURNISHINGS

In a home where large windows and doors let light flood into the interior, sometimes it can be a case of having too much of a good thing. When TDC & Associates took on this project, the design team aimed to balance the brightness with sleek design details. That, together with cosy living spaces as a result of thoughtful space planning, turns out a hotel-worthy abode.

Visual interest with textures and shapes are created to prevent a large space from looking too stark

**DINING** A classy eight-seater square dining table gives the dining area a sophisticated edge. Topped with an oversized pendant lamp, it is reminiscent of private dining rooms in upscale restaurants. **BEDROOM** Dark hues promote relaxation in the bedroom. Soft lighting illuminates the space, casting soft shadows on the fabrics, walls and ceiling. A great way to reduce the amount of sunlight is to place the TV in front of the windows.
